PROFESSIONAL SUMMARY

Full Stack Software Engineer with **2+ years** of production experience, working remotely for **Avanto VR Solution GmbH**, a German VR/AI company. I build backend services with Java/Kotlin, **Spring Boot**, microservices and REST APIs, and modern frontends with **React**, **Next.js** and **Angular**. I have delivered **15+ REST APIs** used by **3,000+ customers**, cut media-upload time by **80%** using AWS S3, and shipped AI-powered product features from UI to API. I hold a B.Sc. in Computer Science and Engineering, have a research paper accepted at an international conference, and have solved **100+ LeetCode** problems.

CORE COMPETENCIES

- REST API Design
- Database Design
- AI / LLM Integration
- Background Jobs
- Microservices Architecture
- Zero-downtime Migrations
- Authentication & RBAC
- Responsive UI
- Full Stack Web Apps
- Cloud Storage (AWS S3)
- Unit & Integration Testing
- Remote Collaboration

TECHNICAL SKILLS

Languages	Java, Kotlin, TypeScript, JavaScript, SQL, PHP, C
Backend	Spring Boot, Spring MVC, Spring Security, Spring Scheduler
APIs & Architecture	REST APIs, Microservices, MVC, Next.js API Routes
ORM & Migrations	JPA, Hibernate, Flyway
Frontend	React, Next.js (App Router), Angular
Styling & UI	Tailwind CSS, Bootstrap, HTML5, CSS3, Framer Motion
State & Charts	Zustand, Recharts, React-Leaflet
Databases	MySQL, MariaDB
Cloud & DevOps	AWS S3, Azure, Docker, Vercel, Render
Security	JWT, Session Auth, OAuth, Role-Based Access Control
AI	LLM APIs (Groq, OpenRouter), AI search, recommendations, chatbots
Testing	JUnit 5, Mockito, Postman
Tools	Git, GitHub, IntelliJ IDEA, VS Code

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer — **Aug 2024 – Present**

Avanto VR Solution GmbH, Germany — *Remote*

Backend & Microservices

- Built a new microservice end to end.
- Developed **15+ REST APIs** for the iOS and Android apps.
- APIs serve **3,000+ customers** in production.
- Split a monolithic backend into microservices.
- Improved scalability and reliability under production traffic.
- Designed REST APIs together with the team lead.

Performance & Database

- Moved media storage from local disk to **Amazon S3**.
- Upload time dropped from **~1 minute to 5–10 seconds** (80% faster).
- Used Hibernate and **Flyway** for database access and migrations.
- Ran **zero-downtime** schema migrations in production.

Features & Automation

- Built customer routing features.
- Built real-time location heartbeat tracking.
- Automated background jobs with **Spring Scheduler**.

Key Products

- **ESYSYNC Dashboard:** built in Angular for 3,000+ customers.
- Added real-time monitoring and a cleaner UI to ESYSYNC.
- **FEELESTATE:** built an AI-powered interior design feature.
- Handled both frontend and backend for FEELESTATE.

Tech Used

- Kotlin, Java, Spring Boot, Hibernate, Flyway
- MySQL, MariaDB, AWS S3, Docker, Azure
- Angular, Git

PROJECTS

ShopSpot — AI-powered E-commerce | *Spring Boot, React, MySQL, JWT, Docker* GitHub | Live Demo

- Full-stack online shop built with Spring Boot and React.
- Product management, cart, checkout and orders.
- AI chatbot for customer questions.
- AI-powered product search.
- Personalized product recommendations.
- AI image search: find products from a photo.
- Review sentiment analysis.
- Low-stock alerts and inventory analysis.
- JWT login with role-based access control.

Alumni Association Platform | *Next.js, React, TypeScript, Tailwind CSS* GitHub | Live Demo

- Full-stack app with Next.js App Router.
- Admin approves new alumni registrations.
- Notice create, edit and delete.
- Photo gallery management.
- API routes with server-side validation.
- Cookie-based login with role-based route protection.
- QR code verification for alumni profiles.
- QR tokens keep internal IDs hidden.
- Data layer ready for a future PostgreSQL move.

ProLens — Real Estate Platform | *React, TypeScript, Vite, Tailwind CSS* GitHub | Live Demo

- Property listings with search and filters.
- Interactive map with React-Leaflet.
- Side-by-side property comparison.
- Market-insight charts with Recharts.
- Global state with Zustand.
- Smooth animations with Framer Motion.
- Built with Vite, deployed on Vercel.

Student Result Management System | *Java, Spring Boot, JPA, MySQL, JUnit* GitHub

- MySQL schema for students and semester results.
- REST APIs with Spring Data JPA.
- Automatic GPA calculation.
- Blocks duplicate or inconsistent grades.
- Unit and integration tests with JUnit 5 and Mockito.
- Central error handling with @ControllerAdvice.

E-commerce Backend REST Service | *Java, Spring Boot, Hibernate, MySQL* GitHub

- Product catalog APIs.
- Pagination, sorting and filtering.
- Request validation on every endpoint.
- Custom exceptions with clear error messages.

Other Projects

Global Exception Handling	Standard error responses in Spring Boot.	GitHub
Spring Boot JWT Security	Login and roles with Spring Security + JWT.	GitHub
Springular CRUD App	CRUD app with Angular and Spring Boot.	GitHub
Angular + PHP CRUD	CRUD app with Angular, PHP and MySQL.	GitHub
Webpage Screenshot Service	Spring Boot app that captures web page screenshots.	GitHub
Game Hub	React app to browse video games.	GitHub
Memory Management Techniques	OS memory management techniques in Java.	GitHub
Sudoku Solver	Sudoku puzzle solver in Java.	GitHub

RESEARCH & PUBLICATION

PaniCord: An IoT-Based Emergency Alert System Using ESP32 for Real-Time Location Tracking Certificate

- Accepted and presented at **ECCT 2026**.
- International Conference on Electrical, Computer & Telecommunication Engineering.
- Hosted by Dhaka International University.
- ESP32 device that sends emergency alerts.
- Shares the user's location in real time.

EDUCATION

B.Sc. in Computer Science and Engineering **August 2026**

Dhaka International University *Dhaka, Bangladesh*

ACHIEVEMENTS

- **100+ problems** solved on LeetCode.
- Regular HackerRank practice in data structures and algorithms.
- **40+ public repositories** on GitHub.
- Research paper accepted at an international conference (ECCT 2026).
- Production features used by **3,000+ customers**.
- Worked full-stack in industry while completing a B.Sc. degree.
